

Learning Thinking SCOPE

The Learning Thinking SCOPE is a Pedagogy of Learning focusing on thinking.

The SCOPE is a framework leveraging evidence-informed classroom strategies that make a significant impact on student learning.

1 Introduction to the SCOPE

2 Learning Clarity

3 Thinking Questions

4 Thinking Talk

5 Thinking Feedback

Learning Thinking SCOPE Workshops

- Deepen understanding of research knowledge.
- Build evidence-informed classroom strategies.
- Build collective teacher efficacy.

*Each element involves 6 hours of teacher learning.
This can be delivered in 1.5hr, 3hr or 6hr workshops.*

The Learning Thinking SCOPE is best delivered as a package beginning with Learning Clarity. However, schools may start their SCOPE journey from any point based on their Gap Analysis.
